For Immediate Release

It is with profound concern and sorrow that we must inform the public of a deeply troubling incident involving two of our MBBS 2nd year students.

Last evening, at approximately 7:58 pm., both students left the campus for dinner. One of them returned at 8:42 p.m., but after loitering around the main exit area for around 5–6 minutes, he stepped out again at about 8:48 p.m. The two then returned together at 9:29 p.m. The female student proceeded toward the Girls Hostel at around 9:31 p.m.

Later, it came to light that the female student, while she was outside campus, had endured an assault—an occurrence she has herself claimed and reported. At once, she was shifted to the hospital and admitted for urgent medical care. The local police have been duly alerted who in turn commenced an active investigation into the matter.

We wish to emphatically state that the institution stands firmly by the affected student and her companion. We extend to them our full support and are resolved to pursue justice with utmost diligence. Our key priorities at this moment are:

1. Safeguarding the well-being of the affected student — ensuring she receives not only medical care, but also psychological counselling .
2. Full cooperation with law enforcement — we are committed to providing all relevant evidence as is asked by the authorities.
3. Maintaining transparent, responsible communication — while respecting legal boundaries and privacy, we will keep students, parents, staff, and the public appropriately informed as the case progresses.

We deeply understand the gravity of this incident, and our hearts go out to the student and her family during this distressing time. We pledge to stand alongside them and work tirelessly with the authorities to ensure that those accountable are brought to justice.
